Write your name upon my sidewalk
-paint it on the door outside-
And I will never go away without you
Tape your picture on my mirror
-blow it up and paste it on my bedroom wall-
And I will never stay inside again
Without you

You remind me - Remind me
You're the one - the only one that
I-I really love
You remind me - Remind me
Of anyone I've ever known you
Are the only one
I should be thinking of

I'll leave a necklace on your dresser
-throw my clothes across your chair-
So when you wake up in the morning
I am - I am there
I'll put a love note in your pocket
-leave my lipstick kisses all over your face-
So when you go to sleep without me
I'll be there - I'll be there

To remind you - Remind you
You're the one - the only one that
I-I really love
To remind you - Remind you
Of anyone you've ever known I
Am the only one
