

Fist Raised "Break Free"

Visit "[Break Free](#)" on MotoLyrics.com

I feel so great just on this cover
Cause there are so many things to discover
Let my feelings be a part of this thing
You've just been now it's my turn to be the king
This feeling I have is outrageous
I never knew that it could be dangerous
I'm happy for once can you please let it stay
And if it isn't for real then let me play

To be positive and open minded
It isn't easy I know
No, I can't be something I'm not
I just have to break free from the start
I can't be something I'm not
I just have to break free from the start

I'm walking on a level higher than you are

I'm stepping on the line but I will never go to far
And if I fall directly when you are around
I will land with pride and both feet on the ground
This time is different from others
This time I'm going with my brothers
Try the champ not today anyway
He will just give you a raised fist up your face

Break free from the start

To be positive and open minded
It isn't easy I know
No, I can't be something I'm not
I just have to break free from the start
I can't be something I'm not
I just have to break free from the start
