It's only being given time to think that creates boredom
I could be better off some other way
Don't give the opportunity to think to me, it's not
worthwhile
Just take that opportunity away
Just give me things to do, nothing to think about or look
at
I'll work until my body breaks
I'll live a life as long as or as short as you'll require me
too
A life as long as those things take to do
Just, [just give me animal mentality, just give me
animal's mentality]*4
Then i'll get by, ok? ok??
I don't know why you educated me, i knew you hated
me
It's only sadism - your favourite game

Teach people vaguely how to walk, then chop their legs
away,
Then laugh at them because they're lame
It's only being given time to think that creates boredom
I think about it and decide that i am free
But freedom's just like boredom - nothing worthwhile to
fight for
Then just give me animal mentality
Then i'll get by
[just give me animal mentality, just give me animal's
mentality]*3
Then we'll all get by, ok? ok.
Animal mentality.
