(Check it out) (Here we go) (Right)

Why do you call up and fight with your feelings
Girl weve been friends now for far too long
I know some part of the things that I'm schemin'
But there's no way I could do you wrong

Bridge:

I said love was sayin' it ain't that
Then you turn around and come back
I can tell the way that you act
That you want this

Chorus:

Don't you fight it girl it's only natural
You disguise what's in your eyes they say too much
Don't deny that when we touch it's physical
Let it be, you and me, don't fight it, baby

Don't need to tell me we're riskin' this friendship
But there's no stoppin' this vibe we're on
And when we play I can feel we're not jokin'
In every stare that we share too long

(Bridge)

(Chorus)

What everybody knows (don't fight it baby)
Just let you're feelings show (don't fight it baby)
Don't wanna let it go (why fight it baby)
Look to your heart and you'll know that you want it
Baby you know you make me feel real hot
Keep you body shakin' show me what you got

(Chorus x2)
