You can call me anytime baby
Pick up the phone and dial 555 on line

(Chorus)
Let's have a party
Connect me to somebody (x2)

(555 on line)

Being the man that I am
And the click that I got
I wish I was a little bit more like super cop
It's a frenzy my friends be
Like Benz's to Bentley
This bad boy not bad
So why don't you comprehend
I got your number
Don't you think it's time we hook it up
I'm all alone
Ain't no mums in my area
Can't go to your place
Cos your mum's scarier
You want to bring some of your friends
The more the merrier

(Bridge)
You got my number on your dial
Waiting just to come around
Anytime, anywhere
Whatever's planned of mini skirts, high shoes and
leather
Tonight's the night
Do me right, turn me on
Jhelisa got the body
Julie got the back
Lisa got the energy
To help me stay on track

(Chorus)

I'm not talking about the ladies

That loves to lead you on
Say they got your number
But they never ever call
Like Eva the honey dip
Now I don't even wanna trip
Gave her my number
Her man gave me the fat lip
Now I don't bother calling anybody anymore
Sipping the finest
Chauffeur driven and I'm getting calls
555 ladies loves the cool J
No Mr Smith in this baby
Come and get the real thing

(Bridge)

(Chorus)

Now I got digital and optical
I'm even on the net
I got mmm, ah, oh, I forget
Cos nothing in this world
Like some sexual healing
Toss it up baby
I'm ready willing receiving
Message understood
Loud and clear I'll be there
You got my number on your dial
Anytime anywhere
Whatever's clever mini skirts
High shoes or leather
Tonight's the night baby
Got to get mo wetter
Girl you look so fine
Just call me anytime
You're driving me crazy
Can't get you off my mind

(Chorus)
