Sometimes I get to thinkin'
And I can't control
Thoughts on my mind
They're playin' on my soul

When I know what I'm believin'
And it keeps me strong
People of the world
We've got it goin' on

And I said, "Hey, what are you thinkin'?"
And I said, "Hey, we got to get together
Feel the love now"

I wanna sing it out louder
Wanna scream and shout it
We got to get together
Feel the love now

I wanna sing it out louder
Wanna scream and shout it
We got to let this love in

Sure, there's gonna be some times
You'll get it wrong
Don't let it get you down
You gotta move along

And when you let the light of hope
Free your mind
All around the world
The sun is gonna shine

I said, "Hey, what are you thinkin'?"
And I said, "Hey, we got to get together
Feel the love now"

I wanna sing it out louder
Wanna scream and shout it
We got to get together
Feel the love now

I wanna sing it out louder
Wanna scream and shout it
We got to let this love in

Stand up
Come on and put your hands up
Never gonna give up
We got to get together
Feel the love now

Stand up
Come on and put your hands up
Never gonna give up
We got to get together
Feel the love now

I wanna sing it out louder
Wanna scream and shout it
We got to get together
Feel the love now

I wanna sing it out louder
Wanna scream and shout it
We got to let this love in

I wanna sing it out louder
Wanna scream and shout it
We got to get together
Feel the love now

I wanna sing it out louder
Wanna scream and shout it
We got to let this love in

I wanna sing it out louder
Wanna scream and shout it
We got to get together
Feel the love now

I wanna sing it out louder
Wanna scream and shout it
We got to let this love in

I wanna sing it out louder
Wanna scream and shout it
We got to get together
Feel the love now
I wanna sing it out louder
