Chorus:

It's the things you do
That have made me fall
So in love with you
You can have it all
What else can I do
Nothin' left to prove
It's the things you do

(It's the things you do)

You touched my love line
So deep inside
I never thought I'd feel so good
Oh no
No need to hide now
Open up your mind now
Let me make it understood

Bridge:

Cos nobody ever said to me
All of the things we shared within
Now that I know that you can see
Let me fill you up

(Chorus)

You make my neck twist like a cap from a Coca-Cola
bottle
With your body looking finer than the finest model
Tell me baby can you shimmy
Can you make me feel hot
What you got is me in the right spot
One of the finest things on my mind is
How you make me feel like gold from queen Midas
Straight A plus the material I bust
But the things that you do
Keep me up and that's a must

(Bridge)

It's the things you do
That have made me fall
So in love with you
You can have it all
What else can I do (what else can I do)
Nothin' left to prove (baby nothing left to prove)
It's the things you do
That have made me fall
So in love with you
You can have it all
What else can I do
Nothin' left to prove
(It's the things you do)
Give me a chance and let me in
There's no need to hide what's there within
Now that I know that you can see
Let me fill you up
You got that Midas touch
I love you more than enough
For all the things that you do
It's the things you do
So in love with you
You can have it all
What else can I do
Nothin' left to prove
It's the things you do
