So here's how it started, it started with a beat  
A beat in my head, and it wouldn't go away  
So I added a bass, the bass was fat  
I played it to my boys on a 24 track

They like that ah, the hand clap followed by the mic  
Check, no time for dinner, five's out on the night shift  
Shady eyes in the middle of the night  
Into the dawn till the lyrics lock tight  
On to the mix tell the DJ, quick five boom

He kept playing my song  
On and on, all night long  
He kept playing my song  
On and on, all night long

Rip it up everybody, rip it up one time  
Let me bring your riggidy rugged flow for your mind  
I Got what you need now, let me break it down  
Five on the low, with the funk for your town

Down on the floor now, let me see you move  
This time tonight, now it's time to groove  
Who got the champion, sound understand  
Rhyme for rhyme, five on the low down

Get down, get down  
Get down, get down  
Get down, get down  
Check it

He kept playing my song  
On and on, all night long  
He kept playing my song  
On and on, all night long

Like I said before, I got the funk for your trunk  
From the junk yard, to the Boulevard  
Here we come ladies, lock tight  
Woo with that straight five, dead right  
Party's over here we got the five boom all night

We made a hit, yet another home runner  
And sweet sugar J has got you hot like the summer  
So I'm a stepping back and let the DJ  
Bust the mix five boom

Get down, get down  
Get down, get down  
Get down, get down  
Get down, get down  
Get down, get down  
Get down, get down  
Get down, get down  
Check it

He kept playing my song  
All night long  
He kept playing my song  
All night long

Baby bounce, let me see you bounce to this  
I got the mic technique, to help you use your ears  
So you it by the radio, hands on the dial  
Soon Five on the jam, time to pump up the volume

Another fly track to get down, let me see you move  
Time for you to get down and prove it!  
Ain't no doubt that we're fly  
So don't deny

He kept playing my song  
On and on all night long  
He kept playing my song  
On and on all night long

He kept playing my song  
On and on, all night long  
He kept playing my song  
On and on, all night long

He kept playing my song  
On and on, all night long  
He kept playing my song  
On and on, all night long

He kept playing my song  
On and on, all night long
