We're going all night, till along this line
We're going all night

Bring that, break funk
'Cause I'm here giving what you want
Like spread got time to stop got time
To peel back the roof on my new glock top

The day looking good to me
Got girls wanna know 'cause I freak like Jodeci
Besides that let's get with the ground
Wanna hear that again then press rewind

If you wanna get with me
You've gotta let go, baby
If you wanna get with me

I don't know what it is but you make me high
A burning feeling that starts inside
It really doesn't matter who's wrong or right
We can go all night, we're going all night

Base vibration
Check it out when my rhyme began
I'll drop my rhyme upon this beat
And make you people move your feet
Everybody from the front to the back come on

Feel the rhythm when I bounce the track
I've gotta hit that, don't wanna sit back
I really wanna see your hands
Could I get that? Come on

If you wanna get with me
You've gotta let go, baby
If you wanna get with me

I don't know what it is but you make me high
A burning feeling that starts inside
It really doesn't matter who's wrong or right
We can go all night, we're going all night

We can go all, we can go all
We can go all, all night, all night, all night

I don't know what it is but you make me high
A burning feeling that starts inside
It really doesn't matter who's wrong or right
We can go all night, we're going all night

I don't know what it is but you make me high
A burning feeling that starts inside
It really doesn't matter who's wrong or right
We can go all night, we're going all night

All night, all night, all night
