You wonder why I never ask
Where you've been
Where you're going
What you do

Cause I know
If it was up to you
I'd just be told a lie

(CHORUS)
So, you just do
What you wanna do
Cause when I get
Tired of playing the fool
I'll just go out and
Find me someone new

(CHORUS)

You walk around so fancy free
Giving your number to
Whoever you please

And when they call
You walk into the den
Saying, honey
It's only a friend

(CHORUS)

So, you just do
What you wanna do
Cause when I get
Tired of playing the fool
Believe me, darling
I'll just go out and
Find me someone new
