Late night
Early morning
We talked until there was nothing left to say
It was strange
The war was on
But I've never felt so safe
No, I've never seen better days

You laughed
You understood something unfamiliar
And I didn't think I could feel this way
I was cold and tired
And that world outside was hungry
But I've never seen better days, better days
No, I've never seen better days

Headlines were tragic
But it didn't seem to matter
It was easier then to turn the other way
From the ruins of rage
I guess we were scared
But I've never seen better days, better days
No, I've never seen better days

And when I kissed you
Concealing my confusion
Of what I knew but just couldn't say
I love you, I love you
Oh, how I love you
And I've never seen better days, better days
No, I've never seen better days

The end is here...
The end is here...
The end is here...

And I've never seen better days, better days
No, I've never seen better days
