At 17 she left Long Island bound for Hollywood
Another story like the ones you've heard before
He left her broken like you figured, like you knew he
would
She shut her heart after his ring rang off the door

It's the story of your life
You're tearing out the page
New chapter underway
The story of your life
You live it everyday
You can run, you run
But you won't get away
I don't know what's coming up
Where will you go now
It's the story of your life

She hit the ground
She built a fine career
Every weekend walked her dog beside the sea
In the salt she met a man who knew at once but wait
Is he the one we need him to be

In the story your life
You're moving down the page
As the words begin to change
The story of your life
You live it everyday
You can run, you run
But you won't get away
I don't know what's coming up
Where will you go now
It's the story of your life

Look around look around and the world will find you
There's a reason that we live so far from Hollywood
In the country looking hard to find a home
We're nothing perfect
All considered
But we're so damn good

It's the story of your life
You're moving down the page
And you know you're on your way
The story of your life
You live it everyday
You can run, you run
But you won't get away
No one knows what's coming up
Where will you go now
It's the story
It's your story
It's the story of your life
