

Five For Fighting "This Dance"

Visit "[This Dance](#)" on MotoLyrics.com

This is not our favorite song
But the night's moving right along
May I have your hand, may I have this dance?

I sense that you are amused
But you just bought those brand new shoes
It would such a shame, not to give us the chance

And oh, my love
There is only so many dances
We can take across the night
So while is just me and you
I thought I might say to you
You put the beautiful in life

I know at times that you feel alone
When I'm here and I'm never home
You said it before, it's the price that you pay

On matters of clarity
It's no secret you carry me
But you disguise thoughts of fall, I will keep you safe

And oh, my love
There's only so many dances
We can take across the night
So while is just me and you
I thought I might say to you
You put the beautiful in life

And oh, this is not our favorite song
But I wish it go on and on
It's moments like these singers do all they can to stop
time

So let me just say to you
Before the DJ changes the tune
You put the beautiful in life
You put the beautiful in life
