Sometimes she treats me fine  
Then gets way out of line  
But still in all, I'm sticking like glue  
'Coz I know what I've got  
But I don't know what I'm getting  
So baby, I'm with you

I thought I'd try to switch  
And find me someone rich  
But told myself how big can you get  
'Coz I know what I've got  
But I don't know what I'm getting  
So baby, I'm all set

My friends say I could do a lot better  
If this keeps up, I'll soon need a nurse  
I know I can't do any better  
But believe me, I could do a lot worse

Let's have it understood  
It's you and me for good  
And anyone that doubts, it's gotta go  
'Coz I know what I've got  
But I don't know what I'm getting

Here's something you should know  
Well, I forgot to tell her that I love her so
