

Bombshell Rocks

"Guns & Democracy"

Visit "[Guns & Democracy](#)" on MotoLyrics.com

Guns, tanks and weapons of mass destruction
a war for oil, what is it good for?
Terrorist action
A black suit and a smile
covers up government issues
all confidential, all classified

Living in the land of the free
Guns control democracy

Military forces join together
to protect and to serve
Its just a matter of time
before heaven hits the ground
there won't even be a sound
when bombs come falling down

And we know things won't get any better
yeah we know, We've heard this song before
