

Bombshell Rocks

"My Conclusion"

Visit "[My Conclusion](#)" on MotoLyrics.com

Death and destruction, easy solution
Follow the leader, mass confusion
Young kids screaming, revolution
Prophets talking about evolution

On TV, prime time execution
Thank you media, a fine contribution
The rich keep earning, the poor keep losing
A world gone mad, my only conclusion

My only conclusion
My, my

Delusional kids, miscommunication
Parents wasted on heavy medication
Politicians cut back on education
And what about our future generation

These bodies in need of a blood transfusion
Severely injured, from all this pollution
Where's their respect, their love and compassion
A world gone mad, my only conclusion
