The ground is shaking
It's the sign of a reaction
No more lies
Tell people they are justified
Look who's watching
Ready for a clash, ready to step in
But the people gather in
(no clue what he says here)

When a city comes together
Like Roma 2005
I can't help feeling
When a city takes a stand
Marching hand in hand
I feel a slight touch of freedom

1 2 3 Go

The ground is shaking
All eyes on a nation
The tension is high
There's a positive vibe in the air tonight
Look who's watching
Ready for a clash, ready to step in
But the people gather in
(no clue what he says here)

When a city comes together
When a city takes a stand
When a city comes together
When a city takes a stand
