Make me wait here forever,  
To see the back of your hair,  
Trying not to get to close to you.  
But if I ever walk through that dark lit room, without  
you...  
If I ever walk through that door again without your  
hand.  
Make me wait here forever, trying not to get to close to  
you.  
Watch you come and go, and I get so confused.  
When you come and go I can't keep up with your head.  
Why do I get this sense of loss every time you go?  
"I wish I knew" he said, "what it feels like to lose."  
No you don't.
