You've been gone for a long time  
And our never ending lives  
Have come to an end  
I just want to love you, oh  
Like I've never before, mmm  
Now I know I spend a long time hiding, yeah  
After all our fussing  
Here comes a change of heart  
But I just need to show you, ooh oh  
How much I need you tonight  
I need you, hah  
I gotta have, gotta have you baby  
Baby, it's a long time coming

Making love to you  
Fill me with your love  
(Feell me with your touch)  
(I really need your touch, really need you lovin')  
Just wanna be touched (me touching you)  
Let's go on forever  
So deep in you (so many feelings deep inside)  
(When I feel your heart right next to mine)  
So much tenderness inside (inside, baby)  
Let's make it last, make us feel much better

Ooh, ooh  
Dim the lights and come to me  
(You gotta come to me, come to me)  
Show me the rhythm  
That I've been waiting for, oh, oh, oh, oh  
Baby I can't pretend  
This feeling I'm feeling inside  
It's got me wanting you more, more, ooh  
Make believe, honey  
Like sugar so sweet  
I want to stay forever and ever  
I'm gonna make this night  
A night that you'll never forget  
Gonna give you real love  
Gonna make you feel good  
Ooh ooh ooh, yeah

Boy I really need you, ooh  
I'm gonna give you all of me

Making love to you  
(Me and you can never be too much)  
Fill me with your love  
(Feel me with your touch)  
(I need your touch, really need your huggin')  
Just wanna be touched  
(Me touching you)  
Let's go on forever  
So deep in you (so many feelings deep inside)  
(So much tenderness inside)  
So much tenderness inside (inside, baby)  
Let's make it last, baby make us feel much better

Making love to you  
Fill me with your love  
(Feel me with your touch)  
(I really need your touch, really need your lovin')  
Just wanna be touched  
(me touching you)  
Go on forever  
So deep in you (so many feelings deep inside)  
(When I feel your heart right next to mine)  
So much tenderness inside  
(keep it coming nice and slow)  
Let's make it last, make us feel much better  
It will make us feel much better

Making love to you  
(Me and you can never be too much)  
Fill me with your love  
(Feel me with your touch)  
(I really need your love)  
Just wanna be touched (me touching you)  
Go on forever  
(So much tenderness inside)  
So much tenderness inside (inside, baby)  
Let's make it last, make us feel much better
