You better think about it, oh
You better think about it, oh

Tonight I heard a rumour going on
You found somebody new and now you're gone
But I just wanna say
I know you'll be back someday, so

Save a place in your heart for me
Save a little love for you and me
I'll be waiting here to kiss away your tears
So save a place in your heart for me

Yeah uh oh yeah

Everybody's searching for a dream
But baby, what you're looking for is right here with me
So if you have to go
There's something you should know, oh

Save a place in your heart for me
Save a little love for you and me
I'll be waiting here to kiss away your tears
So save a place in your heart for me

(You gonna need me) need me
(Someday) someday
(You gonna need me) need me
(Someday) someday
So save a place for me, yeah

Ah ha, you better think about it
Wo wo wo oh

(Save a place) in your heart for me
Save it
(Save a little love) for you and me
I'll be waiting here to kiss away your tears
So save a place in your heart for me, yeah

(You gonna need me)

(Someday)
(You gonna need me) need me
(Someday) someday
So save a place for me, yeah, yeah, yeeeeaaaaahhh

(Save a place) save a
(You gotta save a) save it
(Save a little love) for you and me
I'll be waiting here to kiss away your tears
(Save a place) save it, in your heart for me, yeah

(Save a place) (You gonna need me)
Oh, oh, oh
(Save a little love) oh yeah
(Someday) for you and me
(You gonna need me) kiss away your tears
(Save a place) ah yeah, won't you save it baby
(Save a place) (You gonna need me) for you
(Save a little love) (Someday)
Oh, oh, oh, ah yeah
(You gonna need me)
Oh, oh, oh (save a place) ah, ha
For you and me
