You thought you took me out  
Down for the count  
But don't count me out  
Cause that's what I'm all about  
No time for crying here  
Your gonna dissappear  
Now that I'm here to stay  
Cause I'm as tough as nails

Cause I've been  
Knocked down, turned around  
Kick me down to the ground  
But now, here I stand  
And I've been  
Chewed out, thrown out  
Cast out, forgot about  
But now here I stand  
Here I stand  
Cause I'm just that type of man

You thought you had me beat  
Like a dog in the street  
Don't turn your back on me  
Cause this dog's got some teeth  
So now I'm in your face  
You are such a disgrace  
I'm gonna put you back in your  
Shitty little place

Cause I've been  
Knocked down, turned around  
Kick me down to the ground  
But now, here I stand  
And I've been  
Chewed out, thrown out  
Cast out, forgot about  
But now here I stand  
Here I stand  
Cause I'm just that type of man

You thought you took me out

Out for the count  
But don't count me out  
Cause that's what I'm all about  
So now I'm in your face  
You are such a disgrace  
I'm gonna put you back in your  
Shitty little place  
You let the tracer trace  
You hit me in the face  
You think you're way up high  
But you're no friend of mine

Cause I've been  
Knocked down, turned around  
Kick me down to the ground  
But now, here I stand  
And I've been  
Chewed out, thrown out  
Cast out, forgot about  
But now here I stand  
And I've been  
Knocked down, turned around  
Kick me down to the ground  
But now, here I stand  
And I've been  
Chewed out, thrown out  
Cast out, forgot about  
But now here I stand  
Here I stand  
Here I stand  
Cause I'm just that type of man
