Oh yeah
Ooooooooooh

You met me by surprise
I must admit I wasn't looking for love tonight
You came into my life
Like a flash of lightning
In and out, through the other side
Over words you tore me apart

I believed in love when I met you
But you scared me away
And then you said goodbye
Now take a look and tell me what you see
Why'd you do this to me
When I love you so

What about me, baby
You protected my soul
You made everything seem right
Wanted you and me for a lifetime
Think about it, baby
I gave you my heart
But when I tried to get close to you
Had to give you my reasons why

Oh, I gave you my reason
Oh yeah, huh

You took me out to dinner
You played everything to get me by your side
Yeah, you really played it right
(Nothing lasts forever) Nothing lasts forever
Did you believe in this
When you kissed me late that night
Why'd you go and tear me apart

I believed in love when I met you
Oh, but you scared me away
And then you said goodbye

What about me, baby
You protected my soul
You made everything seem right
Wanted you and me for a lifetime
Think about it, baby
I gave you my heart
But when I tried to get close to you
Had to give you my reasons why

What about me, baby
You protected my soul
You made everything seem right
Wanted you and me for a lifetime
Think about it, baby
I gave you my heart
But when I tried to get close to you
Had to give you my reasons why

Oh, I gave you my reason
Oh yeah, huh, oooooooh, huh, ow

I believed in love when I met you
(I believed in love when I met you)
Oh, but you scared me away
And then you say goodbye

Oh, ooooooh, yeah, yeah, yeah
You made everything seem right
Wanted you and me for a lifetime
Think about it, baby
I gave you my heart
But when I tried to get close to you
Had to give you my reasons why (oh, oh, oh, oh, oh)
What about me
What about me baby
What about me
What about me
What about me baby
(Think about it, baby)
(Gave you my heart)
(Only tried to get close to you)
Please don't say goodbye (oh, oh, oh, oh, oh)
What about me (oh, oh, oh, oh, oh)
What about me (oh, oh, oh, oh, oh)
What about me baby (oh, oh, oh, oh, oh)
