I'm standing in the place we met
Heart shakes and then I sweat
It's so hard to see that
It's all over

What did i do to make this end?
Could I really be your friend?
I can barely just pretend
It's over

I'm standing in the place we first kissed
There's so much I missed
This i cant resist cause
I'm all over

Where we took our first photograph
where i first held your hand and laughed
Awkward moments like that have passed
It's over

You're fine and I believe it
I'm something you never needed
can't say the same for you

There's a first time for everything
and i'll fall in love again
when I begin
My second time around

It's the last time I think of you
do what you'd like to do
if you only knew
I'm never coming back

I'm standing in the place we first said goodbye
I dont know why
I so relied on you
for my smile

I layed happiness in your hands and
I dont really understand

The cost was more than i could stand
It was miles wide

You're finding i'm believing
I'm something you never needed
Cant say the same for you

There's a first time for everything
and i'll fall in love again
when i begin
My second time around

It's the last time i think of you
do what you'd like to do
if you only knew
i'm never coming back

You're fine and I believe it
I'm something you never needed
Cant say the same for you

There's a first time for everything
and i'll fall in love again
when i begin
My second time around

It's the last time i think of you
do what you'd like to do
if you only knew
i'm never coming back

There's a first time for everything
and i'll fall in love again
when i begin
My second time around

It's the last time i think of you
do what you'd like to do
if you only knew
i'm never coming, never coming, never coming
back
