

Five Star Loser

"U Turn"

Visit "[U Turn](#)" on MotoLyrics.com

You and me living like dreams tonight
Full speed, direction unknown, but right
Slow down, we ain't in a hurry,
But I can assure we fit together better than we ever
could've thought,
I never would've wanted anybody else but you.
No, I never could've thought I ever would've wanted
anybody else but you.

And you're fine with me, like I'm fine with you
Seems like the littlest of things will do
But I'd like to know
How to make your garden grow?

Slow down, but take me there the fast way
U Turn, it's time for us to change lanes
I learn from everything you said, you said what I like

Yours and mine taking our time tonight
Can't decide but it's blowing my mind, feel a little lost
inside
Slow down, I don't understand why, you still demand
my song

I'll slow down, take you there the fast way,
U turn, time for us to change lanes
I'll learn from everything you said, you said what I like

Are you a little bit lonely? I'm a little bit cozy tonight
You're a little bit soothing, but it feels like I'm losing
my touch.
Because I want you so much
How could I want you so much?

Slow down, but take me there the fast way
U Turn, it's time for us to change lanes
I learn from everything you said, you said what I like
