It's the smell of your skin
When you just come in
From in my yard

It's the taste of your lips
When you kiss me
You know you've got my heart

This dandelion necklace
That's hanging on the wall
From the night that you told me
That you were fired

Our love is just this way
Pure and simple, built on faith
You and I just feels so right
It's paradise, it's paradise
Our love is just this way
It's what we do and it's what we made
Maybe we been changed but our love will stay
Just this way

There's us dancing in the kitchen
As sing off key to the radio
And baby I'm your biggest fan
With you and your wooden spoon microphone

Although we don't need the money
Honey we'll need the fame
Yeah we got each other
At the end of the day

Our love is just this way
Pure and simple, built on faith
You and I just feels so right
It's paradise, it's paradise
Our love is just this way
It's what we do and it's what we made
Maybe we been changed but our love will stay
Just this way

All these fairytales
Ain't got nothing on us
Where as we like to be? guessing?
As true as it's comes

Our love is just this way
Pure and simple, built on faith
You and I just feels so right
It's paradise, it's paradise
Our love is just this way
It's what we do and it's what we made
Maybe we been changed but our love will stay
Just this way
