Reverse Psychology

Let me take you on a trip to a wonderland
Here we go snap your fingers say alakazam
See your lows, they're your highs and your highs go
above
Jump in to new shoes say bye to what it was
Start the quest, get out of your nest, yes
Shoot your mind up like a rocket, check
The experience you won't regret, that
It will radiate, live and direct, yep
Take a stand
It is your chance, plan
To expand, you're in command, and
Break a mould, off the old
Go
Take a step forward and open up a new door

Reverse psychology never was my major
And I can't fight that what is in my nature
But I try and I try and I try and I try
Standing on my head on the roller coaster ride

Reverse psychology never was my major
And I can't fight that what is in my nature
But I try and I try and I try and I try
Jumping from the roof as I'm learning to fly

It's a ride unpredictable you cannot prepare
But keep your mind open wide 'cause your almost there
Opportunity knocks, don't hesitate to take a chance
'cause otherwise later on you'll be going like damn
Hear what I say another day, hey
Time to do it and not to wait, play
Get it on, it's not too late, may
Possibility that create, break
Walk this earth, for the nerves, word
Quite absurd, to go beserk, ____
You gotta find the fine line time
Remember after rain there's always sunshine

Reverse psychology never was my major
And I can't fight that what is in my nature
But I try and I try and I try and I try
Standing on my head on the roller coaster ride.

Reverse psychology never was my major
And I can't fight that what is in my nature
But I try and I try and I try and I try
Jumping from the roof as I'm learning to fly

Go bang di di bang di bang bang your hands
One for the cause and two for the ___
Go bang di di bang di bang bang your hands
Too many bad boys just to get a rep(utation)

Reverse psychology never was my major,
And I can't fight that what is in my nature,
But I try and I try and I try and I try,
Standing on my head on the roller coaster ride.

Reverse psychology never was my major
And I can't fight that what is in my nature
But I try and I try and I try and I try
Jumping from the roof as I'm learning to fly
Jumping from the roof as I'm learning to fly
Jumping from the roof as I'm learning to fly
Jumping from the roof as I'm learning to fly
Jumping from the roof as I'm learning to fly
