I just want to hold onto you forever
But all I have right now is your written letter
Lovingly you signed
And I'm a thousand miles away
Writing this reply wishing that I could see you everyday
I miss you all the time
And I can't wait till once again I can hear you say
That you miss me just as much
And that you love me in every single way

I just want to hold you, I just want to kiss you
Cuz baby I miss you, especially all of the funny things
you do
Because I love you, more than life its self it's true
Every beat that my heart makes I dedicate to you

I'm counting down the days till your back in my arms

I try to hold back from looking at the clock
Cuz counting down the minutes makes it hard
And every night I have the same dream
Your soft lips touch mine to make the perfect kiss just
like in a movie scene
Then I wake up and realize it was just a dream and I
miss you even more
But at least it's not hard for me to sleep

I just want to hold you, I just want to kiss you
Cuz baby I miss you, especially all of the funny things
you do
Because I love you, more than life its self it's true
Every beat that my heart makes I dedicate to you
