Let no defeat come between you and foe
Lest we forget our bisections make whole
Honour thy
Nemesis, neighbour the natter you know
Stems from the vex your existence errors
Be the salt on the finger
The rub in their eye
Let know defeat builds on flaw

Denied I fill my will to kill ???

Where is repeat going?

How do I beat my kind
Deny all and hide vex

Net, crow and leech off the solace of foe
Fallen defeated with unwanted chiding from you.
Vexed for reasons torn
Vexed for reasons torn
Vexed for reasons torn
Vexed for reasons torn
Vexed for reasons torn by shame

And who's to blame?

How do I beat my kind?
Deny all and hide vex

Net crow and leech off the solace of foe
Fallen defeated with unwanted chiding from you.
Vexed for reasons torn
Vexed for reasons torn by shame

Who's to blame?
