Hush  
Don't say another word  
You've told me what I need to know  
A rush to you  
Your voice it went unheard  
As I fold you and hold back truth  
Love doesn't lie  
Not to me  
After all this time I still believe

You point  
And Laugh  
And I turn  
'Cause lately that's all that I've earned  
Am I close to you?  
Shouldn't I be over you?  
I stayed in the same spot  
But I still feel so lost  
Is this happening?  
Should I be happily ever after?

You come and you go  
But you stay very low  
Is there a time in my mind when you'll leave me  
alone?

Cause they've said to me once I don't need you  
And you told me yourself that it's gone  
And if that's what it is I'll believe you  
I'll just wait in the wings 'til you're wrong

Stay  
How you lose me  
Stay  
How you choose me  
Stay  
How you lose me  
You wanna see it  
But you don't believe that the same things got you  
staying

You come and you go

But you stay very low  
Is there a time in my mind when you'll leave me  
alone?

Cause they've said to me once I don't need you  
And you told me yourself that it's gone  
And if that's what it is I'll believe you  
I'll just wait in the wings 'til you're wrong
