Verse 1:

I've seen someone has my well,  
my swelling eye  
I'm open, wide open  
I seem curious by God I'll take this tight,  
you write the calls, I can not cope  
the loss has left

chorus:

they're not my friends,  
all we have is to end them for  
they're not my friends,  
when in wrong there's nothing to say

Verse 2:

I feel careless when I feed my angry eyes  
I'm open, wide open  
you say the lights are on my pages are much clearer  
the loss has left, the coals are cold  
your hands to steel

chorus:

they're not my friends,  
all we have is to end them for  
they're not my friends,  
when in wrong there's nothing to say

they're not nowhere,  
all we have is just this false side  
they're not my friends,  
when in wrong there's nothing to say..

Verse 3:

I feel impossible  
my hands are tied to the back of my pain  
why we weren't so still  
I'm about to give in...

(music)

chorus 2:

they're not my friends,  
if they catch us you'll turn on me  
they're not my friends,  
you're the last to see me standing  
they're not nowhere,  
if we get back safe we'll find me  
they're not my friends,  
if they catch us you'll turn on me
