Slow down it's the end and I'm alone this time  
So now you win and I'll be home when it feels right  
I have gone too far and I must be out of my mind  
I'm climbing the ladder but falling back down

You'll never change us all  
You'll never change at all  
You'll never make me fall  
You'll never change

So now we begin to unfold before we rise  
So now I'm in your control like the last time  
I have gone too far and I must be out of my mind  
Climbing the ladder but falling back down  
You'll never change us all  
You'll never change at all  
You'll never make me fall  
You'll never change

I'm close now to closing  
Pulling me down  
I seem to remember  
It has you surround  
Dead in the water  
It's taken your crown  
I wont pull you out  
So forget me

You'll never change us all  
You'll never change at all  
You'll never make me fall  
You'll never change
