Stand up
With stand on your own
That's what they tell me
You can make it alone
But where does it say I have to move
Far away from you
To prove I'm strong?
Oh...
When all it really proves is
I'm lonely without you
And loneliness has to be wrong
Chorus:
I Live For Your Love (ev'ry day)
Ev'ry minute
I Live For Your Love (got one life)
Want you in it
I Live For Your Love
I admit it
I Live For Your Love
I Wake up
With no one to kiss
Sometimes I wonder
If I just exist
I know I've got people I could see
Places I could be
And friends who call
Oh..
But what good does it do?
There's no substitute for you
I want you or nothing at all
(Chorus)
I Live For Your Love and your kisses
And oh how I'm missin' your sweet tender touch
I need you so much that I just can't go on anymore
What I wouldn't give for
'Cause darling..
(Chorus)
