### "Show Out"

Visit "[Show Out](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You see the lights cameras looking like we bout to go  
hammer

One thing that's for sure, I am not the one to rock the  
show

They show up they show out, show up they show out,  
Show up they show out, show up they show out,  
Show up they show out, show up they show out,  
Show up they show out, show up they show out

Hey beat check, bass check, microphone check 2  
But none of that matters let the spirit come check you  
So I play the background, I know when to back down  
Out here going hammer like Jesus is coming back now  
I don't want the glory either why you think I go hard  
Tell you like I tell my barber bro I don't want no part  
Homie what's in your heart pride off in your pocket  
You want all the credit boy what's in your wallet?  
Sorry I can't control myself I lost it I ain't bout to lose it  
Oops please pardon me for all this Jesus juice that I  
been spewing

Ruining my good shirt, stomping got my foot hurt  
Crucified for all my sins ya they call that woodwork  
I spit loud as I walking round if you jump but that don't  
work

Like Elijah call them fire from the sky fireworks  
Fire words at these people, pray evil would be  
restrained

Lord we need you so we calling on your name like the  
Flame

You see the lights cameras looking like we bout to go  
hammer

One thing that's for sure, I am not the one to rock the  
show

They show up they show out, show up they show out,  
Show up they show out, show up they show out,  
Show up they show out, show up they show out,  
Show up they show out, show up they show out

Paradise was lost, Adam why you wreck it?  
Messing round with trees and find out that he was

naked  
Then sin entered in boy I got a message Jesus  
That they all infected and protection's been rejected  
So I'm standing on stages off and on on these jets  
Flight attendant is tripping just like she bout to flex  
But I am not tripping on the way to a show  
Gotta tell em bout Jesus cause they need to know  
Oh no it really ain't about me bro  
I shouldn't ever say that though what you think He  
saved me for  
So that I can get on stage and the crowd get amazed  
and they pay me dough?  
Never  
So this smiles on my face when I step in the place and I  
say hello?  
Never  
I'ma preach this grace, I'ma teach this grace then I say  
let's go  
I don't have a heaven and I don't have a hell  
I can't put you in either but He surely will  
Jesus stepped on the scene, showed up on the cross  
Showed out when he rose, he did both for the lost

You see the lights cameras looking like we bout to go  
hammer  
One thing that's for sure, I am not the one to rock the  
show  
They show up they show out, show up they show out,  
Show up they show out, show up they show out,  
Show up they show out, show up they show out,  
Show up they show out, show up they show out.  
I am not the one to rock the show [repeat]  
Lights cameras looking like we bout to go hammer
