As logic stands you couldn't meet a man
Who's from the future
But logic broke as he appeared he spoke
About the Future
"We're not gonna make it" He explained how
The end will come - you and me were never meant
To be part of the future -
All we have is now -
All we've ever had was now
All we have is now
All we'll ever have is now

I noticed that he had a watch and hat
That looked familiar
He was me - from a dimension torn free
Of the future
"We're not gonna make it" He explained how
The end will come - You and me were never meant
To be part of the future -
All we have is now -
All we've ever had was now
All we have is now
All we'll ever have is now -

All we have is now -
