Visit "[1000 Foot Hands](#)" on [MotoLyrics.com](http://MotoLyrics.com)

How was it designed

Hands a thousand feet up

How could it survive

Seems it'd be all beat up

Hear it loud

Love and light combine

It's like a shiny sound

Loves to love, it shines

Hahaha

Hahaha

Hahaha

Hahaha

Hahaha

Haha

See, I thought I wasn't mad

See, I thought I wasn't mad

But I lost what I had

But I lost what I had

Realizing the speed of life

As it passed

Oh

As it passed

Oh

As it passed

Oh

As it passed

Facing the divide

Which way will it lead us

Killing off the guide

Using thoughts as beacons

Hear it loud

Love and light combine

It's like a shiny sound

Loves to love, it shines

Hahaha

Hahaha

Hahaha

Haha

Haha

Hahaha

Hahaha
