As logic stands you couldn't meet a man
Who's from the future
But logic broke as he appeared he spoke
About the future

We're not gonna make it
He explained how the end will come
You and me were never meant to be
Part of the future

All we have is now
All we've ever had was now
All we have is now
All we'll ever have is now

I noticed that he had a watch and hat
That looked familiar
He was me from a dimension torn free
Of the future

We're not gonna make it
He explained how the end will come
You and me were never meant to be
Part of the future

All we have is now
All we've ever had was now
All we have is now
All we'll ever have is now

All we have is now
