Always there in our hearts
Fear of violence and death
Always there in our hearts
There is love and there is pain
Always there in our hearts
There is evil that wants out
Always there in our hearts
There are sorrows and sadness
Always there in our hearts
Never understanding
Always there in our hearts
Something pure that we can't control
Can't control
Can't control
Can't control

Always there in our hearts
Destroying everything we know
Always there in our hearts
Not forgiving those who are weak
Always there in our hearts
Shame that we are all powerless
Always there in our hearts
A joy of life that overwhelms
Overwhelms
