How does it feel to be breakin' apart?
Breakin' down molecules
How does it feel to be out of control?
Another ring around this ball

Used to be alright
But things got strange

How does it feel to be fallin' apart?
Sinkin' from the bottom down
It's not so easy holdin' it up
With everything fallin' down

Used to be alright
But things got strange
Used to take all night
But things've changed
And God walks among us now

Used to be alright
But things got strange
Used to be uptight
But things've changed
And God walks among us now

How does it feel to be fallin' apart
With everything breakin' down?
How does it feel to be fallin' apart?
Imagine how holdin' on

Used to be alright
But things got strange
Used to be alright
But things've changed
And God walks among us now

God walks among us now
God walks among us now
God walks among us now

...
