Magnified up close, in a pickle jar
Is the last hope the world has, yeah, yeah

Thinkin' that his head surely would explode
His thoughts go deeper than ever, yeah, yeah

Something never dreamed in all the science books
The biggest light switch gets turned on, yeah, yeah,
yeah

And he's on the way to a real first
In all the universe, yeah, yeah, yeah, yeah
He saves the day and the world knows
The sonic boom explodes

Hesitant to tell the real reason
The Nobel peace prize is given, yeah, yeah
It's hard to celebrate with a headache, oh yeah, yeah
Yeah, yeah, yeah, yeah, yeah, yeah

And he's on the way to a real first
In all the universe, yeah, yeah, yeah, yeah
Lets go

And he saves the day and the world knows
So watch his head explode, yeah, yeah, yeah, yeah
Turn on
