Lucky

Now you're right in front of me
Block up all the lightning
You chase the storms away

Rainbows

Though you never really know
Sometimes they come to you
Luck can save the day

Now you're a man, you're a lucky man
You've got a bunch of lightning super rainbows
Shooting out of your hands
It even makes the fucked up days
Feel like part of your plan
Now you're a man, you're a lucky man
(You're a lucky motherfucker)

Now you're a man, you're a lucky man
You've got a bunch of lightning super rainbows
Shooting out of your hands
It even makes the fucked up days
Feel like part of your plan
Now you're a man, you're a lucky man
(You're a lucky motherfucker)

Lucky

Now you're right in front of me
Block up the lightning
You chase the storms away

Rainbows

Though you never really know
Sometimes they come to you
Luck can save the day

Gonna get lucky
Gotta get lucky now
