Yes sir, I know things are really bad  
But this one here won't make it to the lab  
He's too weak to speak, I apologize  
For not being quicker to decide  
But I'm not looking for excuses  
And I don't want to be a nuisance  
If you would make just one exception  
Instead of being bold about it  
Instead of being bold about it  
The captain's being cold  
The captain's being cold  
Instead of being bold about it  
The captain's being cold  
Instead of being bold about it  
The captain's being cold  
Instead of being bold about it  
The captain's being cold  
Instead of being bold about it  
The captain's being cold  
Instead of being bold about it  
The captain's being cold  
Instead of being bold about it  
The captain's being cold
