

Flaming Lips "With You"

Visit "[With You](#)" on MotoLyrics.com

When I walk with you I feel weird
When I talk with you I feel weird
When I'm standing here I feel strange
When you're standing near I feel strange

All that I know
Is my mind is blown
When I'm with you
When I'm with you
When I'm with you

When I'm with you
When I'm with you
When I'm with you
When I'm

When you're touching me I feel great
When I'm touching you hallucinate
When I'm standing here I feel strange
When you're standing near I feel strange

All that I know
Is my mind is blown
When I'm with you
When I'm with you
When I'm with you

When I'm with you
When I'm with you
When I'm with you
When I'm
