"Away From You"

Visit "[Away From You](#)" on MotoLyrics.com

I drive these miles broken hearted
Ever since when we parted
The twisting curves and broken highways
There's only so much more I can say

(chorus)

I'm to alone without you
I'm to prone to being around you
I remember our first kiss, one soft one on the lips
The last word to you I said, I said I love you..

(end Chorus)

I've been gone for way to long
I have to sing, our love song
To get my mind off the pain to ease
I know your waiting at home, on the edge of your seat

(Chorus)

I'm on my way home to you at last
Seems like months have past
I've tried my hardest to get home
Faster and faster, so i'm no longer alone

(Chorus)
