

Flank "Farewell"

Visit "[Farewell](#)" on MotoLyrics.com

Holding on, to this dream we had
Holding on, To our life and friends
The times we shared, the moments that last
My eyes well up, it's farewell at last

(chorus)

Holding ground, until our last playing day
My Life Surrounds, saying farewell to the crowd

--

This pain hurts more, than it should be
My suffer hurts more, Why did it have to be me
You all were so well, and close to me
The stress we took, higher than it should be

(chorus)

(Break)

(Repeat First Verse)

(Chorus)
