He walk upon the left side  
While leaning to the right  
Blinded by the bright light  
Where grey is black and white - no sight

Clap hands for the media man  
He always know what to say  
Clap hands for the media man  
But does he breathe when the bright lights fade away  
Media man - he's a media man

He used to be an acts man  
A weaver in the ring  
He could have been a tax man  
The way he did his thing - with strings

Clap hands for the media man  
He always know when to smile  
Clap hands for the media man  
But watch him laugh when he's crying all the while  
Media man - he's a media man

(Instrumental break)

Clap hands for the media man  
He always know where to be  
Clap hands for the media man  
But does he back off when he sees the things he see  
Media man - he's a media man

Easy on the eyesight  
Compere collar hair  
Mass appealing tonsils  
Poisoning the air - no fair

Clap hands for the media man  
He always know what to do  
Clap hands for the media man  
But does he think when he has to read the news

Media man - that's right he's a media man

See him push, see him crawl  
Watch him rise, watch him fall  
The excuse says the parrot in the tree  
It's what my public want to see  
Media man - media man oh yeah

Clap hands for the media man  
He always know when to lie  
Clap hands for the media man  
But will it add up with a penny on his eye  
Media man - he's a media man  
That's right  
Media man - go through it  
Media man - read the news  
Media man - voice over  
Media man - media man  
Media man - compere collar  
Media man - beeps  
Media man - charming  
Media man - media man  
Media man - pancake  
Media man - gleaming tick  
Media man - good guy  
Media man - media man  
Media man - the profile  
Media man - sincere  
Media man - the wink  
Media man - media man  
Media man - the image  
Media man - the format  
Media man - idiot poor  
Media man - media man  
Media man - popularity
