[Verse 1]

Your love is hard for any  
One man to explain  
It's like a paper cut  
That's slicing through my brain  
This ride was cool  
But then you lost your mind again  
Don't get too comfortable  
This is the bitter end

[Chorus]

Hey, you! Get out of my car  
And take the trash that you brought  
When you're leaving  
Hey, you! You've driven way too far  
And I forgot where we said  
We were going

[Verse 2]

You got to now to  
Reconcile what fell apart  
You and your demons  
And your little shriveled heart  
I found your old cassettes  
You wondered where they'd been  
Now they're just miles of ribbon  
Flapping in the wind

[Repeat Chorus]

[Bridge]

You said, "Everything's going okay"  
You said, "Give me just one more day"  
I've been through enough to know better  
You squeezed everything out of me  
You screwed everything up for me  
I've had enough to last me forever

[Verse 3]

Your love is hard for any  
One man to describe  
But once you kick it

You'll remember you're alive

[Repeat Chorus x2]
