[Verse 1]

I'm sick of all the loud music  
And all the rowdy kids who buy it  
I'm sick of all the loud music  
I need to get some peace and quiet

[Verse 2]

Rock and roll can make you angry  
Watching it betrayed on TV  
Rock and roll, it had a good run  
It didn't die, it's just forgotten

[Bridge 1]

It was starting to feel like a habit  
There was never a lot to get mad at  
So why do we always have to yell?

[Verse 3]

I'm sick of all the fast music  
Trying to make it all seem valid  
I'm sick of all the fast music  
I wish somebody would play a ballad

[Bridge 2]

It was starting to feel like a real chore  
Started questioning what we were there for  
Always banging my head against the wall

[Repeat Verse 1]
