ENVIROMENTAL PRESSURE

Sometimes, it's better to have your own say.
That sheep mentality just isn't the right way.
No one should tell me to do right or wrong.
I could try to be like you but who should I bother?
It's pretty obvious to see.
I'm still that person I was before so don't expect any
pity from me.

For all those lost souls who think that they're still the
same.
Environmental pressure nothing can be done.

Lost years of hope, this attitude won't bring you that
far as you wanted it to.
Though you really did your best not to cheat on
yourself,
you lost this fight guess you ain't that fucking bright
