Time to come back to reality  
Stop living in your own world  
We will brake this rockstar fantasy  
One day you will get what you deserve

You've got a problem and it's haunting you  
Action always brings reaction  
Who will be the next rock attraction  
Always trying to put us down  
Can't stand that we're having good times  
Let's see how long you last  
Keep on hating, be my guest

Time to come back to reality  
Stop living in your own world  
We will brake this rockstar fantasy  
One day you will get what you deserve

You've got the right moves on stage  
Practice them all in your bathroom  
Hell I wouldn't like to be in your shoes  
You bitch and moan and you try so hard  
Oh so hard to make a living  
Sorry mam but I hate to say  
This is not the USA

Time to come back to reality  
Stop living in your own world  
We will brake this rockstar fantasy  
One day you will get what you deserve

You think we're clowns and don't take music serious  
But you will see the joke's on you

Time to come back to reality  
Stop living in your own world  
We will brake this rockstar fantasy  
One day you will get what you deserve
