"Blood And Sweat"

You said two years ago, God bless this hollow ground
and now that the time has come you don't want him
around
the faith that you seem to show, now has dried and
gone
good times won't last so long.

Blood and sweat, built this town, you aren't gonna tear
it down
freedom is why he came, don't you go and take his
name
You said two years ago, God bless this hollowed house
but now that your kids are gone, you don't want him
around
the faith that you seem to show, now has dried and
gone
good times won't last so long
